## Colorants & Additives

### Printing Inks - Aquablak Plus

ChromaScape leads the industry in supplying the highest quality specialty chemical colorants and additives to the printing inks industry. Our network for global sourcing has allowed us to address marketplace challenges that demand new solutions which focus on ways to optimize printing results. ChromaScape is focused on supplying our printing inks customers the highest quality products at cost effective pricing.

To survive in today's competitive marketplace our commitment does not end when your order is shipped. We back up all of our products with know-how. Whether it is product testing, shade matching, application expertise, color training or product development, ChromaScape is ready to serve you. Our sales force and our laboratories are staffed with experienced technical professionals who can assist with any technical problem our printing inks customers may experience today.

#### Aquablak Plus

Carbon black dispersions for high-end graphic arts - the Aquablak+ 9100 series from ChromaScape are high-solids, resonated dispersions designed to allow the ink manufacturer maximum formulating capabilities by providing the highest tintorial strength. These high-end dispersions are suitable for flexible packing and tag/label ink systems.
