1 Identification

- · Product identifier
- Trade name: AQUABLAK 7249
- · Details of the supplier of the safety data sheet
- Manufacturer/Supplier: Chromascape 7555 E Pleasant Valley Rd Independence, OH 44131
- Information department: phone 888.421.0010 email healthsafety@chromascape.com
 Emergency telephone number:
- Call Chemtrec tel: 1 800 424 9300 Outside the United States call 703 527 3887

2 Hazard(s) identification

Classification of the substance or mixture

Skin Irritation 2 H315 Causes skin irritation.

- · Label elements
- · GHS label elements
- The product is classified and labeled according to the Globally Harmonized System (GHS).
- · Hazard pictograms

- · Signal word Warning
- · Hazard statements
- Causes skin irritation.
- Precautionary statements
 Wash thoroughly after handling.
 Wear protective gloves.
 If on skin: Wash with plenty of water.
 Specific treatment (see on this label).
 If skin irritation occurs: Get medical advice/attention.
- Take off contaminated clothing and wash it before reuse.
- · Classification system:
- NFPA ratings (scale 0 4)

Health = 1 Fire = 0 Reactivity = 0

HEALTH FIRE 0 REACTIVITY 0

Health = 1 Fire = 0 Reactivity = 0

Other hazards

Results of PBT and vPvB assessment

- · **PBT:** Not applicable.
- · vPvB: Not applicable.

3 Composition/information on ingredients

Chemical characterization: Mixtures

· Description: Mixture of the substances listed below with nonhazardous additions.

•	Dangerous	components:

2		
	ORGANIC PIGMENT	25-50%
	acrylic collodial emulsion	≥2.5-<10%
7664-41-7	ammonia, anhydrous	≥0-<0.25%
4719-04-4	2,2',2"-(hexahydro-1,3,5-triazine-1,3,5-triyl)triethanol	≥0.1-<1%
55965-84-9	reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247- 500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)	≥0.0025-<0.025%

4 First-aid measures

- Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- After inhalation: In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact: Rinse opened eye for several minutes under running water.
- · After swallowing: If symptoms persist consult doctor.
- · Information for doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

- Extinguishing media
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture No further relevant information available.

7 Handling and storage

- · Handling:
- Precautions for safe handling

In accordance with good industrial practices, handle with care and avoid personal contact. Containers should be triple rinsed according to federal regulations and/or good waste management practices.

- · Information about protection against explosions and fires: No special measures required.
- Conditions for safe storage, including any incompatibilities
- Keep containers closed when not in use.
- · Storage:
- · Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

Control parameters

Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

7664-41-7 ammonia, anhydrous

- PEL Long-term value: 35 mg/m³, 50 ppm
- REL Short-term value: 27 mg/m³, 35 ppm Long-term value: 18 mg/m³, 25 ppm
- TLV Short-term value: 35 ppm Long-term value: 25 ppm

• Exposure controls

- · Personal protective equipment:
- General protective and hygienic measures:
- Keep away from foodstuffs, beverages and feed.
- Immediately remove all soiled and contaminated clothing.
- Wash hands before breaks and at the end of work.
- Avoid contact with the skin.
- Avoid contact with the eyes and skin.
- · Breathing equipment:
- If exposure to dust is likely, a NIOSH approved dust respirator is recommended.
- Protection of hands:

Protective gloves

• Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

• **Penetration time of glove material** The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- · Eye protection: Always wear safety glasses.
- Body protection:
- Light weight protective clothing

Wear apron, coveralls, boots and long sleve shirt to prevent skin contact.

Limitation and supervision of exposure into the environment
 Eyewash fountains should be easily accessible.
 Shower after handling this product.
 Workclothes should be washed before reuse.
 Before eating, drinking or smoking, wash hands and face with soap and water.

10 Stability and reactivity

- · Reactivity No further relevant information available.
- · Chemical stability
- **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- Hazardous decomposition products: Burning will produce oxides of carbon, nitrogen and sulfur.

11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- · on the skin: Irritant to skin and mucous membranes.
- · on the eye: May be irritant.
- · Sensitization: No sensitizing effects known.
- Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations: Irritant

12 Ecological information

· Toxicity

- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes: Not hazardous for water.
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Disposal must be made according to official regulations.

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

· Uncleaned packagings:

Containers should be triple rinsed according to Federal Regulations and/or good waste management practice.

• **Recommendation:** Disposal must be made according to official regulations.
