

ELCO Colorants & Additives

Direct Powder Dyes

For over 23 years, ChromaScape has led the industry in supplying the highest quality colorants and chemicals to the paper industry. Our network for global sourcing allows us to address marketplace challenges that demand new solutions which focus on ways to optimize paper coloring techniques. ChromaScape is focused on supplying our paper customers the highest quality products at cost effective pricing.

To survive in today's competitive marketplace our commitment does not end when your order is shipped. We back up all of our products with know-how. Whether it is product testing, shade matching, application expertise, color training or product development, ChromaScape is ready to serve you. Our sales force and our laboratories are staffed with experienced technical professionals who can assist with any technical problem our paper customers may experience today.

We offer seminars and training sessions for mill personnel either at your site or in our manufacturing facility located in Greenville, South Carolina.

Colorant Selection Process and Application

No matter what the requirement, ChromaScape will be happy to evaluate your particular color application. Our technical staff will guide you through color selection, shade matching and physical testing criteria. We can assist in any process application from batch or continuous coloring to automated size press color correction. Whether you are tinting whites or deep dyeing tissue, ChromaScape has the experience to service and supply any colorant approach for paper.

Direct Powder Dyes

While liquid dyes may be preferable where automated color control is used to produce pastel to moderate shades, powder dyes remain the product of choice where large volumes are used to produce very deep shades for fine paper and tissue. Since powder dyes are three to five times more concentrated than liquid dyes, smaller quantities are required.

lbs/ton	Description	Shade	Ionic Character	Fiber Affinity	Light Fastness	Bleach-ability	Bleed-fastness	Two Sideness	FDA/ Pre 58 Comp
50	Elcomine Stilbene Yellow G-P		Anionic	Good	Good	Very Poor	Very Good	Even/Top	Yes
